Cameron Green

Front-End Web Developer

✉ hello@camgreen.works   📞 07464753049   🏠 camgreen.works   github.com/camcgreen

Profile

Enthusiastic and diligent individual seeking a career-change to pursue a deep interest in web development. Quietly confident and eager to play a part in the creation of innovative new applications and websites.

Projects

Portfolio, project showcase site
- Showcase for the various projects I have completed, built with React and GSAP.

Chatbox, real-time chat application
- Chat application, made with React and Firebase, that can connect you to anyone in the world. The app is complete with online status messages, typing indicators, read receipts and activity timers.

Jobstasy, remote job search platform
- Job search platform, created with React, that provides a nice interface to filter and sort through the GitHub Jobs API, and allows you to like jobs to view later.

Experience

Packaging Technologist, Neal's Yard Remedies

January 2019 - Present // Dorset, England
- Promoted to work on gift packaging, where I delivered three successful Christmas product range launches.

Packaging Technician, Neal's Yard Remedies

October 2016 - January 2019 // Dorset, England
- Developed, sustainably sourced and tested packaging for New Product Development health & beauty launches.

Skills

Languages
JavaScript, HTML, CSS/SASS

Libraries & Frameworks
